

07017.B MIXING VALVE

GENERAL DATA

- Non-return mixing valve.
- With manual temperature selection.
- Robust construction in chromed brass.
- Join and filters included.
- Suitable for mixing hot and cold water without allowing cold water to enter the hot water line. The result is an optimal mixture of water without temperature changes.
- Durability, corrosion resistant and easy cleaning.

TECHNICAL DATA

- Material: CW617N brass chrome body and stainless steel.
- Chrome under standard EN248.
- Water outlet with hexagonal nut between 23 mm faces and 1/2" female thread.
- 1/2" male thread water inlets.
- Supply pressure: min. 0.5 – max. 6 bar.
- Supply temperature: 5 – 65 °C.
- Equipped with non-return check valves.

SUGGESTED TEXT FOR PRESCRIPTION

NOFER 07017.B mixing valve with non-return valves and manual temperature selection. 1/2" male thread inlets and 1/2" female thread outlet. Made in chrome plated brass plus plastic components in POM. Includes filters and join for installation. Dimensions: 55 mm height x 71 mm width. Manufactured by NOFER, S.L. – Avda. de la Fama, 118 - c.p: 08940 Cornellà de Llobregat - Barcelona. www.nofer.com.
